

Effective September 1, 2023

CORN MOISTURE DISCOUNT/DRYING & OTHER INFORMATION:

Corn will be shrunk at 1.4% per point. Until September 30 the drying rate will be 3.0 cents per point. Starting October 1 the drying will be 4.0 cents per point. The drying charge will be computed on wet bushels. These factors break on the half point. Corn applied to **contract and delayed price** will be shrunk and dried to **15%**. Corn applied to **storage** will be shrunk and dried to **14.0%**.

STORAGE RATE:

Storage for Corn will be 17 cents until 12/01/23 then 3.5 cents per month prorated daily (\$.00117 per day).

DELAYED PRICE RATE:

DP rate for corn will be 17 cents until 12/01/2023 then 3.5 cents per month prorated daily (\$.00117 per day).

*Delayed Price rates are subject to change and will vary according to market conditions. *

MARKETING OPTIONS:

When grain is delivered to the elevator, we need to know what you want to do with it. This is important. If the ticket is incorrect, please advise us as soon as possible. Shown below are some of your choices:

- 1) **APPLY TO AN EXISTING CONTRACT**-If you have entered into a contract prior to delivery we will automatically apply your grain to the oldest contracts first, unless you tell us not to.
- 2) **SPOT CONTRACT**- Spot prices will be determined according to the settlement price the day of delivery. Grain delivered on Saturday and Sunday will be priced based on Friday's close.
- 3) **HOLD**-If no other options are chosen, we will place your loads on hold. Any grain on hold at the end of 7 days will be placed in storage, if available, or sold at the current price. If we fill up with grain, we will not be able to offer hold but will need to have spot or contract sales only.
- 4) **STORAGE**-When grain is delivered inform us that it is "Storage". The rates above will apply.
- 5) **DELAYED PRICE OR PRICE LATER**- Subject to market rates available at time of sale.
